Adapting to Climate Change in the Chesapeake Bay Watershed

Philadelphia, PA (March 15, 2011) – MGKF founding partner Joseph M. Manko, chair of PENNVEST (Pennsylvania Infrastructure Investment Authority), spoke at “Adapting to Climate Change in the Chesapeake Bay Watershed” presented by the Chesapeake Bay Program’s Scientific and Technical Advisory Committee on March 15, 2011. Manko was part of the private sector/industry panel that provided perspectives on private sector activity in driving and responding to demands for greater consideration of climate change in decision making. Together, the panel led discussions on the opportunities and barriers to progress. The goal of the program, held at EPA Region 3’s regional offices, was to investigate how the Chesapeake Bay Program can adapt its institution, programs, and policies to address a changing climate.

Joseph M. Manko has more than 35 years of experience advising clients on environmental issues relating to real estate development, regulatory permitting and compliance, and transactional

matters, including mergers and acquisitions, environmental reporting, and alternative dispute resolution matters. He has served since 2003 as Governor Rendell's designee to chair the Board of Directors of PENNVEST.

MGKF concentrates its practice in environmental, energy, and land use law and litigation. It represents clients ranging from Fortune 100 corporations to small, privately held enterprises, both in the Mid-Atlantic region and on a national basis. MGKF's offices are located at 401 City Avenue, Suite 500, Bala Cynwyd, Pennsylvania and 535 Route 38, Suite 145A, Cherry Hill, New Jersey. For additional information, visit www.mgkflaw.com or call 484-430-5700 or 856-317-1299.
