Philadelphia, PA (February 3, 2011) – Todd D. Kantorczyk, a partner with the environmental and energy law firm of Manko, Gold, Katcher & Fox, LLP (MGKF), will serve as a panelist on a national webinar entitled “Unconventional Gas Drilling & Fracking: Technology, Law & Regulation —The Ins and Outs of this Emerging Environmental Controversy.” The program will cover a wide-range of topics related to extraction and transmission of natural gas in “unconventional” gas plays like the Marcellus Shale, including hydraulic fracturing. Kantorczyk will focus on the regulatory and enforcement actions in Pennsylvania where the natural gas industry, and the legal issues surrounding those operations, has grown significantly over the past few years.

At MGKF, Kantorczyk focuses his practice on litigation and regulatory compliance counseling, covering a wide range of national, state and local environmental programs. His areas of concentration include air, climate change and energy matters, as well as “toxic tort” litigation.

Kantorczyk is a member of the ABA Committee on Climate Change, Sustainable Development and Ecosystems. He received his Juris Doctor from UCLA School of Law and his Bachelor of Arts in government from Cornell University.

The webinar is sponsored by HB Litigation and will be held on February 23, 2011 from 2:00-3:40 p.m. EST. The cost is \$169 per connection, but multiple listeners can attend for no extra charge. There is a surcharge of \$25 per additional listener pursuing CLE credits. For more information and to register, please visit the HB Litigation Conferences website.
