**KATHERINE L. VACCARO,  
OF MANKO, GOLD, KATCHER & FOX, LLP  
TO PARTICIPATE IN NATIONAL WEBINAR ON  
AMBIENT AIR RULES  
THURSDAY, APRIL 22, 2010**

Philadelphia, PA (April 15, 2010) - The Environmental Protection Agency (EPA), in the last several months, has introduced new regulations to strengthen certain national ambient air quality standards. On Thursday, April 22 at 11 a.m., McIlvaine Company will host “Impact of Ambient Air Rules for Fine Particulate Matter and Ozone on Fossil Fuel Power Plants” during their weekly Hot Topic Hour. Katherine L. Vaccaro, an attorney with Manko, Gold, Katcher & Fox, LLP (MGKF), the environmental, energy and land use law firm based in Bala Cynwyd, PA, will be part of a panel of experts presenting during the session.

During the seminar, the EPA’s new regulations on air standards for fine particulate matter – or “PM2.5” – and ozone, as well as the precursors to these pollutants, will be discussed, including both practical and economic implications for affected facilities. Coal-fired power plants are among the types of sources which may have air emissions subject to EPA’s new standards. Therefore, it is important for these and other types of facilities to understand how the relevant regulations might impact them. To participate in the webinar, the cost for registration is \$125. To sign up, visit [www.mcilvainecompany.com](http://www.mcilvainecompany.com).

Vaccaro has experience advising clients on issues related to regulatory compliance, litigation, and transactional matters, particularly in the area of air quality. She has represented industrial and commercial entities, ranging from Fortune 500 corporations to closely held companies, as well as municipalities, in complex matters. She has also written on the regulation of fine particulate matter. In the community she serves on the Board of Directors of Delaware Valley

Earth Force. Vaccaro earned her Juris Doctor from the Temple University James E. Beasley School of Law and her bachelor's degree in biology, summa cum laude, from Drexel University.

*Celebrating its 20<sup>th</sup> year, MGKF concentrates its practice in environmental, energy, and land use law and litigation. It represents clients ranging from Fortune 100 corporations to small, privately held enterprises, both in the Mid-Atlantic region and on a national basis. MGKF's offices are located at 401 City Avenue, Suite 500, Bala Cynwyd, Pennsylvania and 535 Route 38, Suite 145A, Cherry Hill, New Jersey. For additional information, visit [www.mgkflaw.com](http://www.mgkflaw.com) or call 484-430-5700 or 856-317-1299.*
