Inclusion in *Best Lawyers*® is based entirely on peer review. The methodology is designed to capture, as accurately as possible, the consensus opinion of leading lawyers about the professional abilities of their colleagues within the same geographical area and legal practice area. Voting lawyers are all asked the same question, “If you were unable to take a case yourself, how likely would you be to refer it to this nominee?” Lawyers are asked to give nominees numerical grades ranging from 5-1 (5 being for a lawyer the voter would definitely refer a case to and 1 for an attorney they would definitely not refer a case to).

The *U.S. News – Best Lawyers*® “*Best Law Firms*” rankings are based on a rigorous evaluation process that includes the collection of client and lawyer evaluations, peer review from leading attorneys in their field, and review of additional information provided by law firms as part of the formal submission process. To be eligible for these rankings, a law firm must have at least one lawyer who is included in *Best Lawyers* as part of the annual peer review assessment. MGKF currently has 14 attorneys listed for their work in environmental law and/or environmental litigation.
