**Manko, Gold, Katcher & Fox, LLP Presented**  
**“The Environmental Concerns You May Not Be Thinking About but**  
**Should: Strategies for Limiting Your Potential Liabilities”**  
**for DELVACCA’s Health Biotech and Pharma CLE Institute**

(Philadelphia, PA – June 29, 2015) –Nicole R. Moshang and Christopher D. Ball, partners at Manko, Gold, Katcher & Fox, LLP (“MGKF”), the environmental, energy and land use law and litigation firm based in Bala Cynwyd, PA, led a panel with in-house technical consultant Michael C. Nines, PE, LEED AP on “The Environmental Concerns You May Not Be Thinking About But Should: Strategies for Limiting Your Potential Liabilities”. Their presentation was part of the Delaware Valley Chapter of the Association of Corporate Counsel’s Health, BioTech and Pharma CLE Institute that took place on Tuesday, June 2 in King of Prussia. MGKF was also a sponsor of the event.

The Manko panel also featured Amanda J. Scott, Director of Environmental Health and Safety for the Children’s Hospital of Philadelphia. The program served as a primer to assist in-house counsel in identifying and avoiding areas of environmental concern and exposure, whether arising out of current operations, business acquisitions or third-party vendor contractual relationships. They also provided an overview of applicable and proposed environmental laws and regulations to the healthcare, biotech and pharmaceutical industries, governmental enforcement priorities and

discussed ways to minimize exposure for environmental liabilities through strategies such as compliance auditing, due diligence and contractual allocations.

Nicole Moshang is a litigation partner at the firm where she represents clients in the pursuit of and in defense of environmental claims for cost recovery, contribution, natural resource damages, toxic tort, breach of contract, insurance coverage and enforcement and penalty actions under various state and federal statutes. In addition to her litigation practice, she advises clients on a range of environmental matters, including regulatory compliance with federal, state and local regimes.

A partner focused on environmental litigation and regulatory compliance, Ball counsels clients with a unique perspective resulting from his significant regulatory work at both the state and federal levels. As a former deputy attorney general for the state of New Jersey, Chris's litigation experience includes complex federal Clean Air Act citizen suit actions, state solid waste enforcement cases, and administrative challenges to United States Environmental Protection Agency ("EPA") rulemaking. Having also served as a state liaison for USEPA Region III, he has similarly substantial regulatory experience under a wide range of federal environmental statutes.

A licensed professional engineer with over 16 years of diverse environmental engineering experience, Nines has the ability to excel in complex multi-media environmental problem solving through "real-world" experiences in the manufacturing, production, retail, and real estate sectors. He values understanding the intricacies of many clients' complex manufacturing facilities, development projects, and related technologies in order to fully comprehend relevant regulatory concerns while maintaining a corporate management perspective to problem solving.

*MGKF concentrates its practice in environmental, energy, and land use law and litigation. It represents clients ranging from Fortune 100 corporations to small, privately held enterprises, both in the Mid-Atlantic region and on a national basis. Offices are located at: 401 City Avenue, Suite 901, Bala Cynwyd, Pennsylvania; 535 Route 38, Suite 145A, Cherry Hill, New Jersey; and at 25 West Third Street, Suite 303, Williamsport, Pennsylvania.
