During this half-day event, attendees will hear from the region’s top

utility executives who will provide information on the latest developments in their companies, followed by a panel that will examine state and national trends of the day.

A partner focused on environmental litigation and regulatory compliance, Ball counsels clients with a unique perspective resulting from his significant regulatory work at both the state and federal levels. As a former deputy attorney general for the state of New Jersey, Chris's litigation experience includes complex federal Clean Air Act citizen suit actions, state solid waste enforcement cases, and administrative challenges to United States Environmental Protection Agency (EPA) rulemaking. Having also served as a state liaison for USEPA Region III, Ball has similarly substantial regulatory experience under a wide range of federal environmental statutes.
