**October 26, 2011**

**3 p.m. EST**

Philadelphia, PA (October 19, 2011) – Todd D. Kantorczyk, a partner with Manko, Gold, Katcher & Fox, LLP (MGKF), the environmental, energy and land use law firm based in Bala Cynwyd, PA, will participate in a TeleBriefing entitled “State and Federal Regulation of Hydraulic Fracturing” on behalf of Law Seminars International. The TeleBriefing will be held October 26 at 3 p.m. ET. For more information and to register visit <http://www.lawseminars.com/detail.php?SeminarCode=11FRACKTB>

Kantorczyk and other panelists will give participants a practical understanding of hydraulic fracturing and the changing regulatory environment surrounding its application and growth. The fracas surrounding fracturing includes disputes with state and federal regulatory agencies, as well as disputes between those agencies and property owners and residents. At least three federal

agencies are weighing in on this debate, as are other state agencies and local governments who believe they should have primacy on the regulatory issues.

At MGKF, Kantorczyk focuses his practice on litigation and regulatory compliance counseling, covering a wide range of national, state and local environmental programs, including issues related to natural gas development in the Marcellus Shale. He is a member of the ABA Committee on Climate Change, Sustainable Development and Ecosystems. Kantorczyk received his Juris Doctor from UCLA School of Law and his Bachelor of Arts in government from Cornell University.
