**Carol McCabe, Brett Slensky and Michael C. Nines
of Manko, Gold, Katcher & Fox, LLP,
Presented “How Your Environmental, Health and
Safety Department Can Add Value to the Company’s
Bottom Line”**

**2011 DELVACCA EH&S INSTITUTE
Tuesday, September 27, 2011**

Philadelphia, PA (October 12, 2011) – Carol F. McCabe and Brett Slensky, attorneys with the environmental and energy law firm of Manko, Gold, Katcher & Fox, LLP (“MGKF”) and MGKF technical consultant, Michael C. Nines, P.E., LEED AP, participated in a recent program at the 2011 Fall Environmental, Health and Safety (“EH&S”) Institute of the DELVACCA Chapter of the Association of Corporate Counsel. Held on September 27, MGKF’s panelists discussed opportunities for an EH&S Department to create value by limiting a company's potential liabilities and implementing revenue generating projects. Specifically, they addressed how to communicate with agencies for positive results when enforcement actions are looming and the role of the EH&S department in renewables and sustainability projects.

At MGKF, Partner Carol McCabe counsels clients on a wide variety of environmental issues, including permitting and compliance matters related to air emissions, storage tanks, stormwater, wastewater pretreatment, and hazardous waste. Carol concentrates her practice in air matters for a wide range of industrial clients, at both the state and federal level. She has assisted clients with environmental auditing, permit appeals, and defense of agency enforcement actions. Brett Slensky, an associate with MGKF, focuses his practice on environmental aspects of commercial transactions, property development, and regulatory compliance and renewable energy matters.

A Pennsylvania-licensed professional engineer, Michael Nines has over twelve years of diverse environmental engineering experience gained through previous employment in the manufacturing sector, environmental consulting, and with an international chemical manufacturing trade association. He currently provides technical services to the firm's attorneys and clients regarding complex manufacturing processes, multi-media pollution control, and high-performance green building techniques.

MGKF concentrates its practice in environmental, energy, and land use law and litigation. It represents clients ranging from Fortune 100 corporations to small, privately held enterprises, both in the Mid-Atlantic region and on a national basis. MGKF was honored to be the top-rated law firm in the Top Workplaces 2011 survey by the Philadelphia Inquirer, Daily News and Philly.com. Offices are located at 401 City Avenue, Suite 500, Bala Cynwyd, Pennsylvania and 535 Route 38, Suite 145A, Cherry Hill, New Jersey.
